TRAINING GUIDE

KLO Platform

Complete Training Deck for Users, Admins & Guests

Prepared for Keith L. Odom | keithlodom.ai

AGENDA

What We'll Cover

- Platform Overview & Architecture
- Guest Experience (no account needed)
- User Experience (signed-in members)
- Engagement Page Flow (live events)
- Admin Dashboard & Controls
- Event Management & Countdown
- Registration & Access
- FAQs & Feedback

OVERVIEW

Platform at a Glance

Web App

keithlodom.ai — Full-featured web platform accessible from any browser

Mobile App

Native iOS & Android via Capacitor — push notifications, biometric lock

Real-Time

Live polls, Q&A, word clouds, and announcements during events

AI Advisor

Ask Keith — AI-powered strategic guidance on faith, tech & leadership

Assessments

4 assessments: Church Readiness, AI Readiness, Governance, Cyber Risk

Vault

Curated library of frameworks, templates, whitepapers & videos

ROLES

Three Types of Users

Guest

No account required

- Browse events
- View event details
- Join live sessions
- Participate in polls/Q&A
- Take free assessments
- Submit booking inquiries

User

Free registration — full access

- Everything guests can do
- AI Advisor chat
- Full vault access & downloads
- Download event files
- All 4 assessments
- Save content & track progress

Admin

Keith + authorized team

- Full admin dashboard
- Manage events & sessions
- Control polls, Q&A, word cloud
- Toggle countdown clocks
- View analytics
- Manage users & inquiries

SECTION 1

Guest Experience

What visitors see without an account

GUEST

Pages Available to Guests

Fully Accessible

- → Home — Hero, trending topics, latest brief
- → Events — Browse all events, countdown clocks, view details
- → Booking — Submit a speaking inquiry to Keith
- → Consult — Browse 6 consultation topics, submit intake form
- → About — Keith's bio and background
- → Assessments — Church Readiness & AI Readiness (free)

Requires Sign-In

- → Vault — Full access after sign-in (view & download)
- → AI Advisor — Requires sign-in
- → Assessments — All 4 available after sign-in
- → Strategy Rooms — Requires sign-in
- → Profile — Requires sign-in
- → Event Files — Download available after sign-in

GUEST

Events Page — What Guests See

The events page at keithlodom.ai/events is the main hub for all events.

Before Event Day

- **Countdown Clock** — months, days, hours, minutes, seconds (if admin enables it)
- **Event Cards** — title, session name, date, location
- **View More Details** — opens modal with notes, files, description
- **Join Event** — grayed out, not clickable until event day

On Event Day

- **Countdown disappears** automatically
- **"Live Now" badge** appears on the event
- **Join Event button activates** — links to engagement page
- **Live Events section** appears at the top of the page

GUEST

Engagement Page — Live Event Flow

When a guest taps **"Join Event"** on event day, here's what they see:

1	→	2	→	3	→	4
Select Event (if multiple live)		Select Session (if multiple sessions)		Interactive Tools Polls, Q&A, Word Cloud		Session Notes Auto-saved locally

- → If only **1 event** is live → auto-selects, skips step 1
- → If only **1 session** exists → auto-selects, skips step 2
- → If **no events** are live → shows "Come Back Soon For Upcoming Events"

GUEST

Interactive Tools — During a Session

📊

Live Polling

Vote on questions the speaker creates in real time. Results update instantly for everyone.

❓

Q&A

Submit questions during the session. The speaker or moderator approves which questions appear.

☁️

Word Cloud

Type a word or phrase. It appears in a live word cloud visible to everyone — bigger = more popular.

📝

Session Notes

Personal notepad that auto-saves to your browser. Word count displayed. Only you can see your notes.

SECTION 2

User Experience

What signed-in members can do

USER

Registration is Free — Full Access

Registered User (Free)

Create a free account to unlock everything

- All 4 assessments with reports
- Full vault access & downloads
- AI Advisor — "Ask Keith"
- Download event presentations
- Community feed & discussions
- Strategy Rooms
- Profile, saved content, settings

Guest (No Account)

Can still browse and participate in live events

- Browse events & view details
- Join live sessions (polls, Q&A, word cloud)
- Submit booking & consult inquiries
- View event files (no download)
- Browse vault (preview only)
- Take Church & AI assessments

USER

AI Advisor — "Ask Keith"

A conversational AI trained on Keith's expertise in faith, technology, leadership, and digital transformation.

- → Chat interface with suggested prompts to start
- → Streaming responses in real time
- → Conversation history within the session
- → Clear conversation button to start fresh
- → Links to AI Policy Builder

Access

Guest (no account)	Not available
Registered User	**Full access**

Sample Prompts

"How should my church approach AI adoption?"

"What does a digital transformation roadmap look like?"

Assessments

4 Assessments — All Available to Registered Users

- **Church Readiness** — 10 questions, ~5 min. Infrastructure, communication, digital engagement
- **AI Readiness** — 10 questions, ~5 min. Data foundations, culture, governance readiness
- **Governance** — 10 questions, ~5 min. IT policies, compliance, strategic alignment
- **Cyber Risk** — 10 questions, ~5 min. People, process, technology security

Guest Access

Guests (not signed in) can take Church Readiness and AI Readiness. Sign in to access all 4.

Assessment Flow

1. Select Assessment
2. Answer 10 Questions
3. Get Maturity Score
4. View Recommendations

USER

Profile & Settings

Profile Tabs

- **Overview** — Stats dashboard: assessments completed, advisor queries, vault items saved, member since date
- **Assessment Results** — View all completed assessments with scores and maturity levels
- **Saved Content** — Bookmarked vault items for quick access
- **Settings** — Name, organization, notifications, security, sign out

Settings Options

- Update name & organization info
- Toggle email digest notifications
- Toggle assessment reminders
- Toggle new content alerts
- Enable biometric lock (mobile app)
- Update profile information
- Delete account (danger zone)

SECTION 3

Admin Dashboard

Managing events, users & content

ADMIN

Accessing the Admin Dashboard

The Admin link appears in the navigation **only for admin/owner accounts**.

- → Navigate to keithlodom.ai/admin
- → Or click **"Admin"** in the top navigation bar
- → Only visible when signed in as admin or owner
- → Regular users and guests cannot see or access this page

Admin Tabs

- → 📊 Dashboard Stats
- → 👥 User Management
- → 📅 Events Management
- → 🎤 Conference Tools
- → 📩 Inquiries
- → 📊 Activity & Analytics

ADMIN

Event Management

Create, edit, and control how events appear on the site.

Creating an Event

- Event title & conference name
- Date, time, timezone
- Location
- Description & notes
- Website URL
- Multi-day date range (start/end)
- Guest presenter toggle + session details
- Access code (auto-generated)

Event Controls

- **Publish/Unpublish** — control visibility
- **Feature event** — highlight on homepage
- **Countdown Clock** — toggle on/off
- **Engagement Display** — show Event Name or Session Name as heading
- **Status Override** — manually set Upcoming/Live/Past
- **Seminar Mode** — activate engagement page
- **Upload files** — PDF, PPTX, DOCX, etc. (50MB max)

Event Day — Admin Checklist

Steps to go live on event day:

#	Action	Where	What It Does
1	Turn on **Seminar Mode**	Admin → Conference tab	Makes the Engagement nav link visible & engagement page active
2	Create **Session(s)**	Admin → Conference → Session Manager	Creates the sessions guests will select on the engagement page
3	Mark session as **Active**	Admin → Conference → Session Manager	Shows "Live" badge on the session card
4	Create **Polls**	Admin → Conference → Poll Manager	Makes polls available for guests to vote on
5	Enable **Q&A**	Admin → Conference → Session Manager	Lets guests submit questions
6	Send **Announcements**	Admin → Conference → Announcements	Broadcasts messages to all connected guests
7	After event: Turn off **Seminar Mode**	Admin → Conference tab	Hides engagement page & nav link

Conference Tools — Admin Controls

Poll Manager

- → Create poll with question + options
- → Activate/deactivate polls
- → View live vote counts
- → Close polls when done
- → Delete polls
- → Polls are scoped to a session

Q&A Moderator

- → View all submitted questions
- → Approve questions for display
- → Feature top questions
- → Remove inappropriate questions
- → Profanity filter built in
- → Q&A scoped to a session

Word Cloud

- → Monitor word submissions in real time
- → Reset cloud to start fresh
- → Block specific words
- → Word cloud is scoped to the event

Announcements

- → Broadcast messages to all attendees
- → Messages appear instantly
- → Use for schedule changes, reminders, etc.
- → Announcements scoped to the event

ADMIN

Countdown Clock & Display Settings

Countdown Clock

Found in the event edit form under the countdown toggle.

- Toggle **"Show Countdown Clock"** on any upcoming event
- Countdown shows **months, days, hours, minutes, seconds**
- Appears at the top of the Events page, below the hero
- Automatically disappears when the event date arrives
- Multiple events can have countdowns simultaneously

Engagement Display Mode

Controls what name appears as the heading.

- **Event Name** (default) — shows the conference/event name as the main heading
- **Session Name** — shows the session name as the main heading on the engagement page and View More Details modal
- Event cards on the events page always show event title first, session name second

SECTION 4

FAQs

Frequently Asked Questions

FAQS

General Questions

Q: Do guests need to create an account to join a live session?

No. Guests can participate in polls, Q&A, and word clouds without signing in. They only need an account to download files or use the AI Advisor.

Q: How does the Engagement page know which event to show?

It checks today's date against all published events. If the event date matches today AND seminar mode is on, it appears. If only one event is live, it auto-selects.

Q: What happens to the countdown clock on event day?

It automatically disappears when the event date arrives. The event moves from the countdown section to the "Live Events" section with a "Join Event" button.

Q: Can I run multiple events on the same day?

Yes. The engagement page supports multiple simultaneous events. Guests will see a selection screen to pick which event to join.

FAQS

Admin Questions

Q: Do I need to manually switch an event to "live"?

No. Events automatically show as live when today matches the event date. You only need to turn on **Seminar Mode** for the engagement page tools to work. The status override is only needed if you want to force a status change.

Q: What's the difference between Seminar Mode and the event status?

Seminar Mode controls whether the engagement page and "Engagement" nav link are visible at all. **Event Status** (upcoming/live/past) controls how the event appears on the events page. Both are independent — you need seminar mode ON for engagement tools to work.

Q: What's the max file size I can upload to an event?

50MB per file. Supported types: PDF, DOC, DOCX, PPT, PPTX, XLS, XLSX, TXT.

Q: How do I turn everything off after an event?

Turn off **Seminar Mode** in Admin → Conference tab. This hides the engagement page and removes the nav link. The event will automatically move to "Past Events" on the events page after its date passes.

FAQS

Technical Questions

Q: Are session notes saved to a server?

No. Session notes are saved to the guest's browser (localStorage). They persist across page refreshes on the same device but are not backed up to a server. If the guest clears their browser data, notes are lost.

Q: How does the countdown handle time zones?

Each event has a timezone setting (default: Central Time). The countdown calculates the remaining time based on the event's timezone, not the viewer's local time. This ensures everyone sees the same countdown regardless of where they are.

Q: Is the mobile app the same as the website?

The mobile app wraps the same web app using Capacitor, adding native features: push notifications, biometric lock (Face ID/Touch ID), native share, and offline detection. The core experience is identical.

Q: Can guests see poll results after voting?

Yes. Results update in real time for everyone. After an event ends, closed poll results are also visible in the event's "View More Details" modal on the events page.

REFERENCE

Quick Reference — Key Pages

Page	URL	Who Can Access	Purpose
Home	keithlodom.ai	Everyone	Landing page, latest content
Events	/events	Everyone	Browse events, countdown, join live
Engagement	/conference	Everyone (when active)	Live polls, Q&A, word cloud
